

# montecarlo

design Peter Jamieson

The project is based on a streamlined concept regarding bathroom heating, with small glossy design details such as the knobs etc...

Unfortunately, the magic ritual of warm towels from the radiator each morning is suspended during the summer months here in Monaco, as everywhere else.

In a simple and essential concept, the "Montecarlo" radiators maintain their usefulness in summer and winter, shelving the spare towels, soaps, shampoos, brushes, mirrors and slippers.

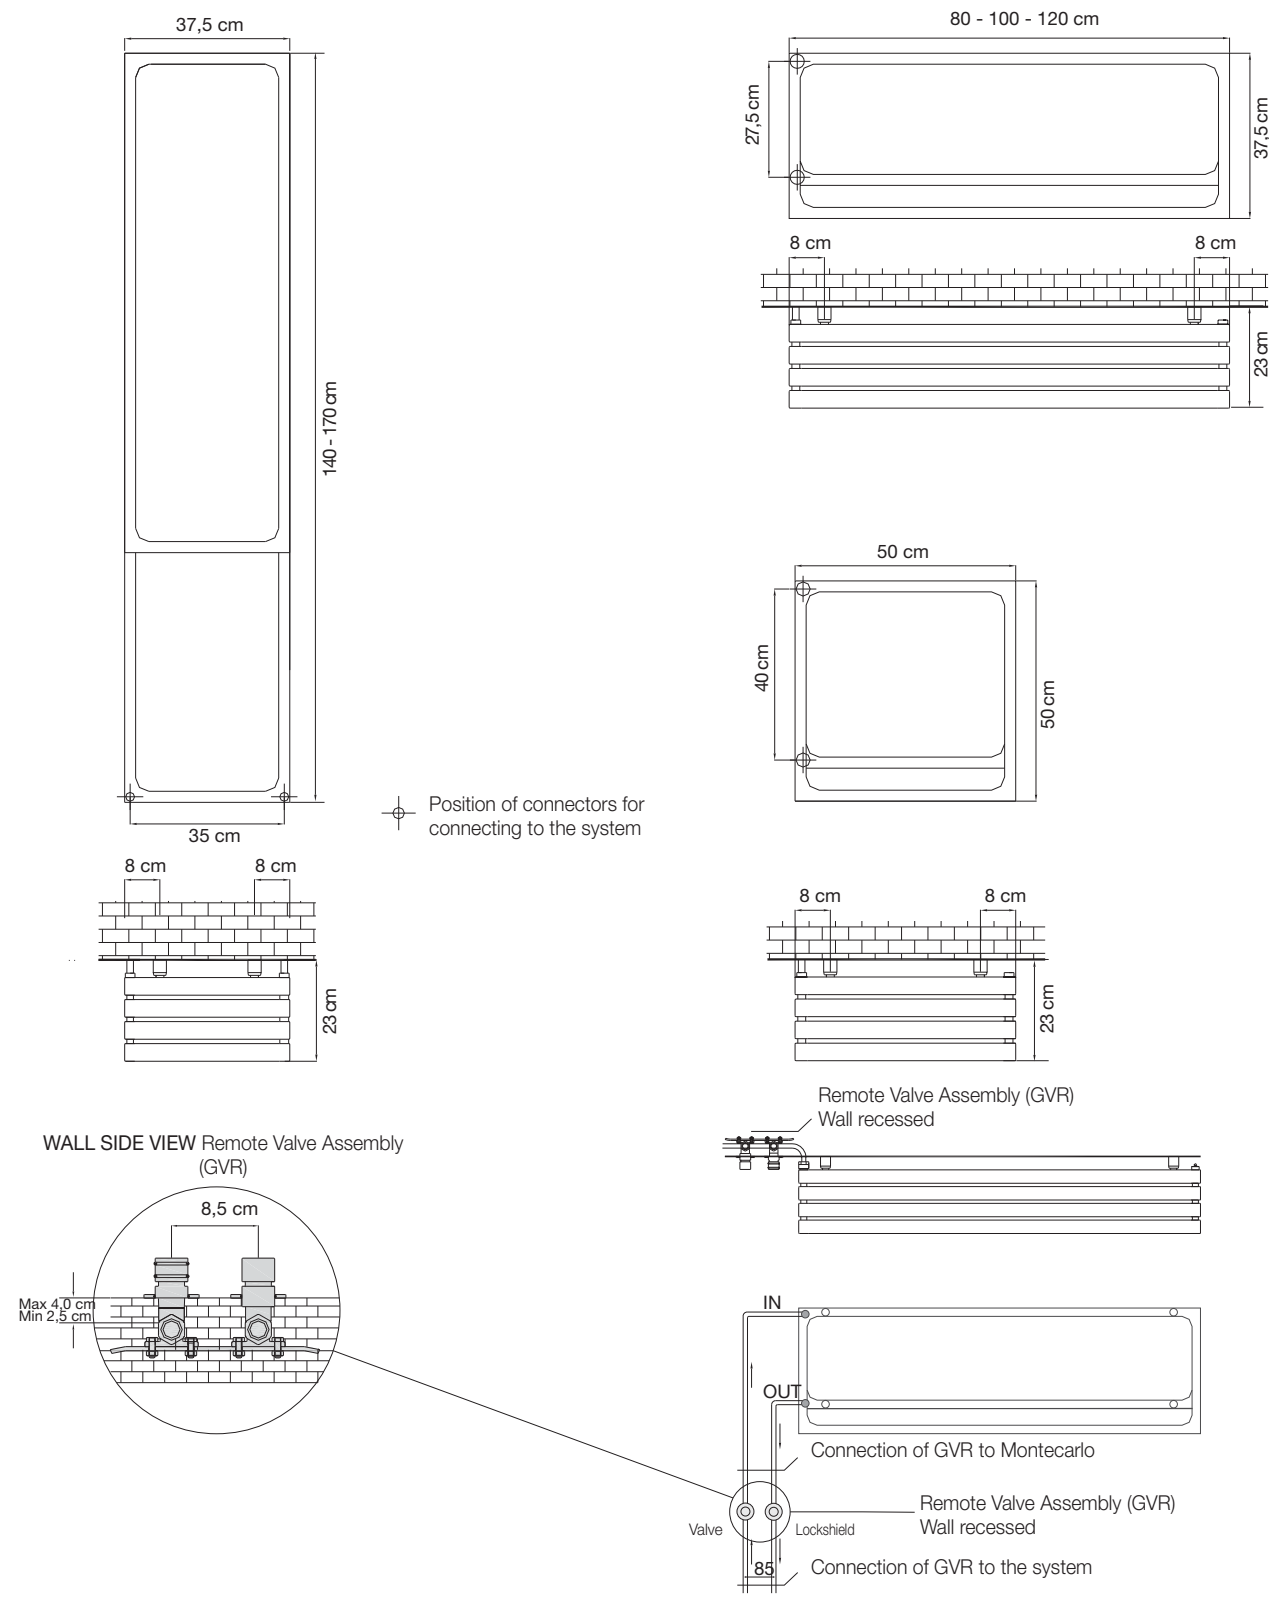

They are designed to cosset our daily rituals from January to December with a new sense of luxury."

# montecarlo

**VERSIONS AVAILABLE**  
- WATER

**PACKING**  
The PACKING box is included in the price, besides the radiator it contains the supports and the vent valve

**CONNECTORS**  
The MONTECARLO model is connected to the heating system with the remote connection Valve and Lockshield (GVR) supplied separately. To fully understand how to arrange for installation consult the technical section here below.

The full price of MONTECARLO DOES NOT include the Remote Valve Assembly (GVR) which is supplied aside as an accessory

#### HYDRAULIC VERSION

# Montecarlo electric version

Steel radiator with 40 x 25 rectangular section tubular elements with coloured finish

**VERSIONS AVAILABLE**

- ELECTRIC is available ONLY in the COLOURED version and NOT in the Chrome-plated version

**NOTES**

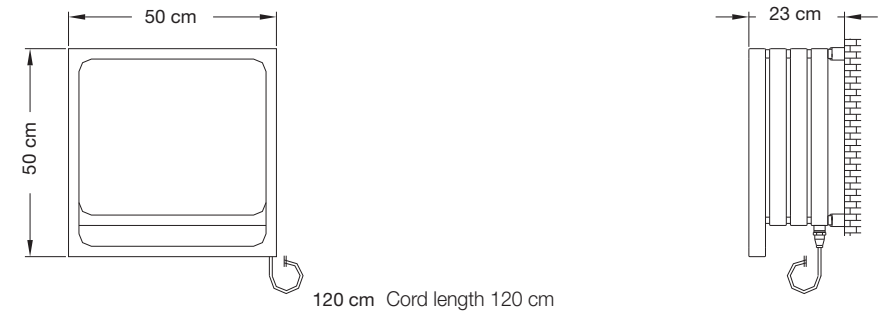

The Montecarlo ELECTRIC model is supplied with a 120 cm long white-coloured cord without the plug. The resistor installed in the Montecarlo ELECTRIC model is a PTC resistor with IP64 level protection - CEI 61-150 EN60335-1 reference regulations.

Contrary to traditional resistors, the PTC resistors have variable energy consumption according heat needs, i.e. there is maximum consumption when just switched on and then consumption reduces when the room temperature is reached. The PTC resistors do not burn out if they are switched on in a radiator that has mistakenly been left without any water.

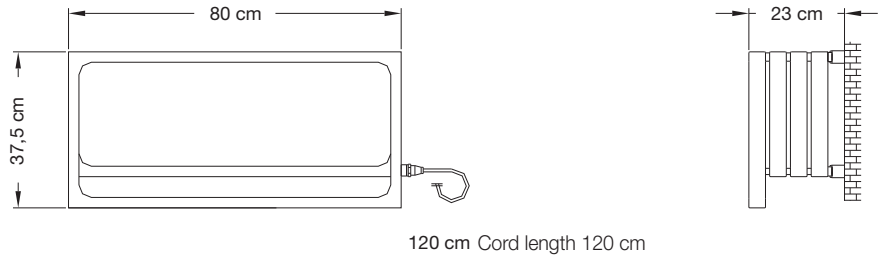

**PACKING**

The PACKING box is included in the price, besides the radiator it contains the supports.
